EDUCATION

B.Tech. Computer Science and Engineering

Manipal University, Jaipur

09/2020 to 07/2024

Higher Secondary School

Tagore Public High School, Jaipur

04/2019 to 05/2020

EXPERIENCE

SWE

Coforge 

10/2024 to Present

A multinational corporation offering global digital services.

- Gained hands-on experience with cloud platforms such as AWS and Azure, including resource provisioning, networking, and security configurations.
- Developed proficiency in Infrastructure as Code (IaC) using Terraform, automating cloud infrastructure deployment, scaling, and management.
- Configured and managed containerized applications using Docker and Kubernetes, improving deployment and operational efficiencies.

SDE 1 Intern

Vakily 

06/2023 to 09/2023

A cutting-edge legal services and solutions platform

- Developed a Chatbot to streamline the process of creating legal documents by gathering customer inputs automatically
- Architected and developed RESTful APIs, optimized app performance by resolving critical background activity issues, and conducted manual testing of web and mobile app functionalities
- Technologies Used: Python-RASA, Python-FastAPI, MongoDB, Python-bs4, GCP, Git

CERTIFICATIONS

CCNA: Introduction to Networks 

CCNA: Switching, Routing, and

Wireless Essentials

SELECTED PROJECTS

Searchlight

- Developed a **Python-based Text Processing API** for PDFs, offering word search, unique word count, and search word highlighting for efficient content extraction.
- **Integrated MongoDB** to store processed data, improving data persistence and retrieval.
- **Implemented AWS S3 integration** to upload and retrieve PDFs, streamlining cloud storage management for document workflows.

FetchIt

- **Developed a CLI Tool using PowerShell** to automate the download and installation of 15+ popular applications
- **Integrated dynamic version retrieval** to automatically fetch and install the latest versions of supported applications.
- **Checks for existing installations**, preventing redundant downloads and improving installation efficiency.

Acadameet

- **Developed a meeting scheduling platform** for students and faculty, integrating Google Calendar and Meet for automated appointment booking and reminders.
- **Implemented secure authentication and real-time data management** using Firebase Authentication and Firestore, ensuring seamless user experience.
- **Technologies Used:** Flutter, Dart, Firebase (Authentication, Firestore), Google Calendar API, GitHub Pages.

Responsive Web Layout

- **Developed the responsive_web_layout Flutter package**, enabling adaptive layouts across web, tablet, and mobile platforms for seamless user experiences.
- **Enabled cross-platform compatibility**

SKILLS

Java	Python	Dart	Flask	Git
MongoDB	Flutter	FastAPI	RASA	
Android Studio	HTML	CSS
