Portfolio Website

SKILLS

Programming Languages

- Python, Java, Dart

Frameworks/Libraries

- FastAPI, Flask, Flutter, RASA, Pandas, Numpy

Databases

- MongoDB Compass

Cloud Services

- Firebase, GCP

Version Control

- Git

EDUCATION

B.tech CSE 2020-2024

Manipal University Jaipur 7.5 GPA

12th, CBSE 2019-2020

Tagore Public High School 76%

10th, CBSE 2017-2018

Jayshree Periwal High School 80%

WORK EXPERIENCE

SDE-1 Intern

Lawinzo, Gurgaon

June 2023 - Sept 2023

- Developed a Chatbot using RASA framework to improve customer interactions
- Architected, developed, and documented RESTful APIs to enhance software ecosystem
- Utilized web scraping techniques to extract and analyze data from external sources
- Optimized app performance by solving a critical issue related to Background App Activity
- Mentored and trained team members on RASA framework implementation
- Conducted manual functional testing of web and mobile app functionalities

App Developer Intern

Data Infosys, Jaipur

May 2023 - June 2023

- Developed the User Authentication Flow using the Flutter framework
- Worked closely with App Development Team
- Conducted code reviews and provided constructive feedback to enhance the quality and maintainability of the code base

PROJECTS

RESPONSIVE WEB LAYOUT

Jan 2024 - Mar 2024

- A Flutter Package for Creating a Responsive Web Platform
- Provided extensive customization options, enabling users to tailor UI elements for different layouts with ease, utilizing a single widget

BREADCRUMBS

Jan 2024 - Mar 2024

- A Flutter Package tailored for Creating Responsive and Customizable Breadcrumbs specifically designed for Web Applications
- Implemented extensive customization options and hover effects, along with accessibility support, to ensure optimal usability

WANDERLUST EXPEDITIONS

Nov 2023 - Jan 2024

- Created "Wanderlust Expeditions" travel website using Flutter for cross- platform compatibility
- Employed Firebase for Back-End management and crafted a dynamic API by curating data through web scraping and JSON

NOTELY

July 2023 - Aug 2023

- Developed "Notely", a cross-platform app for Android and iOS platforms using the Flutter framework. The app serves as a comprehensive tool for both to-do lists and note-taking
- Integrated Firebase for backend services, including data storage and user authentication

CLIMA TREND

Mar 2023 - Apr 2023

- Developed a Weather Prediction Model using the ARIMA model in python as part of a team of 4
- Achieved a Root Mean Square Error (RMSE) in the range of 4-7%, demonstrating the accuracy of the predictions

APPLE VISION

Feb 2023 - Apr 2023

- Developed to detect the maturity of Apples using Convolutional Neural Networks (CNN) and YOLOv8
- Achieved an accuracy of 78% in predicting apple maturity using CNN
- Utilized Python for implementing the machine learning models and processing the image data
